We are so excited to announce our Keynote Address, Choosing Aloha by Kevin Wanzer!

In this fast-paced, hilarious, yet touching keynote address, Kevin recalls and reinforces essential life and love lessons. This uniquely outrageous and interactive program celebrates our connections with each other and the very special education we can receive each day by working with and loving those around us. Kevin's stories and activities remind us to "find the funny" in life, that success ultimately comes down to finding joy in everyday situations, and of the importance of who and what we choose to love.
